Nov 17, 2012 - The SMR assault rifle is the hardest weapon to use in Call of Duty Black Ops 2 I have found so far.

The recoil doesnt hurt since the bullets are slow to come out. Most of the bullets never even fire because of how fast I normally press R1, so I have to literally count half a second just to be sure. [Katy Perry Unconditionally Free Download Waptrick](#)

Spamming R1 Bang Die This gun is going to give me a heart attack It's painfully slow.. I'm so glad it comes with the Select Fire because I absolutely, absolutely HATE having to slow down when I'm pulling the trigger.. If you haven't played the game, it'll basically make a unique looking bullpup style spring rifle.. Unlocked at level 46 Black Ops 2 has some really great assault rifles, but the SMR is pretty low on the list. [انحري بيردز لعبة](#) [فيديو ترأنسفورمرز](#)

The gun had a slow fire rate and poor reload speed, which is unfortunate since the ammo capacity was only at 20 rounds.. Seriously, this gun needs to be the strongest gun in the game next to the snipers, because of how dreadfully slow it is; I feel like a retard using it.. The semi automatic AR boasted the highest damage per shot of all the ARs, but failed on many other levels.
