Apple also offers a web-based version compatible with the latest versions of Safari, Chrome, and Internet Explorer that integrates fully with iCloud.. If you own a Mac, you get an office suite included with your purchase While they are not as popular as the Microsoft and Google suites, Pages, Numbers, and Keynote are great for occasional use and solo needs, particularly if you are entrenched in Apple's ecosystem including iCloud and devices like the iPad.. But if you want something that just works and you are a dedicated Mac user, you should find everything you need with iWork.. You may also run into angry colleagues if you send over a Keynote file when they were expecting PowerPoint, as compatibility isn't always great between formats, particularly when it comes to things like fonts, layouts, and image sizing.. If you are looking for an alternative due to cost, performance, or just a dislike of Microsoft products, you have many alternatives available. 34bbb28f04 [Hcl Ezeebee L A380 Tru Driver For Mac](#)
